1. Read the passage given below and complete the sentence that follow : 1 X 8 = 8

There is a story about a lioness, who was big and young going about in search of pray. Seeing a flock of sheep, she jumped upon them. She died in this and a little baby lion was born, motherless. It was taken care of by the sheep. The sheep brought it up. It grew up with them, ate grass and bleated like sheep. And in time it became a big full grown lion, thinking it to be a sheep.

One day another lion came in search of prey and was astonished to find that in the midst of this flock of sheep was a lion, bleating like sheep at the approach of danger. He tried to get near the sheep lion to tell it that it was not a sheep but a lion, but the poor animal fled at this approach. However he watched for his opportunity and one day found the sheep-lion sleeping. He approached it and said, "You are a lion." "I am a sheep," cried the other lion and could not believe the contrary, but bleated. The Lion dragged him towards a lake and said, "Look here, here is my reflection and yours." Then came the comparison. He looked at the lion and then at his own reflection and in a moment came the idea that he was a lion. The lion roared, the bleating was gone.

Cardamom, the queen of all spices, has a history as old as the human race. It is the dried fruits of a herbaceous perennial plant. Warm humid climate, loamy soil rich in organic matter, distributed rainfall and special cultivation and processing methods all combine to make Indian cardamon truly unique in aroma, flavour, size and it has a parrot green colour.

Two types of cardamon are produced in India. The first type is the large one, which has not much significance as it is not traded in the future market. It is cultivated in North-Eastern area of the country. The second type is produced in the Southern states and these are traded in the future market. These are mainly cultivated in Kerala, Tamilnadu and Karnataka. As per the future market rules, only 7mm quality was previously traded in exchanges. But later, it relaxed its norms, and now 6mm quality is also traded in the exchange.

Cardamon is an expensive spice, second only to saffron. Indian cardamom is known in two main varieties : Malabar cardamon and Mysore Cardamon. The Mysore variety contains levels of cineol and limonene and hence is more aromatic.

India was the world's largest producer and exporter of cardamon till the 1980s. By 1990s Guatemala emerged as the leading producer and exporter of cardamon.

The main harvest season of cardamon in India between August-February. Cardamon reaches yielding stage two years after planting. The primary physical markets of cardamon are kumily, Vandenmodu, Jhekkady, Puliarmala in Kerala and Bodynaikkanur and Cumbum in Tamil Nadu.

Kerala is the main producer of cardamon and contributes up to 60% in total production. Karnataka produces around 25%

cardamon of the total production. Ooty is the main producer of cardamon in Tamil Nadu and contributes around 10-15% of the total production.

Besides India, Guatemala also produces around 2, 200 ton cardamom. On the other hand India produces nearly 1,000 - 2,000 ton cardamom per year. Due to low quality of cardamom from Guatemala, it remains available at cheaper rates.
