	does an index derivative earn popularity?		
Q. 24	There are times when you think the market is going to rise over the next two	4	1
	months; however in the event that the market does not rise, you would like		
	to limit your downside. One way you could do this is by entering into a		
	spread. A spread trading strategy involves taking a position in two or more		
	options of the same type, that is, two or more calls or two or more puts. A		
	spread that is designed to profit if the price goes up is called a bull spread.
